## DETAILED ACTION

### *Election/Restrictions*

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-12, drawn to an apparatus for preparing plastic including a support disc, and an annular gap.

Group II, claim(s) 13, drawn to a method of preparing plastic including the use of two sets of tools with pre-comminuting, pre-heating, pre-drying and pre-mixing.

2. The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the method of group II does not require the use of a support disc and gap, and the apparatus of group I does not require devices for pre-comminuting, pre-heating, pre-drying and pre-mixing the material.

3. A telephone call was made to J. Georg Seka and Examiner Tony Soohoo on 09/30/2003 to request an oral election to the above restriction requirement, but did not result in an election being made. It was agreed that a written restriction requirement will be made for the foreign applicant's timely review and response.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Art Unit: 1723

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
